### Job Description/Duties:

J&J Oilfield ( a division of Zedi Inc) is currently recruiting Oil and Gas Operators. Both contract and permanent employee positions are available. These positions are primarily camp positions in North Eastern British Columbia and North West Alberta. As a key member of the Field Operations team, the ideal candidate will be self motivated, responsible, have good decision making skills and will know how to operate all process equipment.

This full-time role will be responsible for:

- *Providing Gas and Oilfield Services to J&J Oilfield (a division of Zedi Inc).*

### Qualifications:

- *Gas Operators require experience in Gas Compressors and Glycol Dehydrators*
- *Oil Operators require experience with oil batteries and pumpjacks*
- *Must be computer literate (internet, e-mail, excel), SCADA and production accounting programs (PVR, Fieldview) are necessary*
- *Good verbal and written skills*
- *GPO Certificate and PFO Certificate (Production Field Operator) an asset*
- *Exceptional problem solving skills coupled with proven analytical abilities*
- *The successful candidates must be highly motivated to work independently and in a team environment*
- *The ability to work outside during all seasons*
- *Ability to prioritize tasks and plan ahead*

### To Apply:
