

PRODUCTION APPLICATIONS SPECIALIST

Position Overview:

Position Title:	Production Applications Specialist
Date Posted:	February 3, 2010
Closing Date:	Open until filled
Department:	Marketing and Technical Development
Job Type:	Full-time, Permanent
Location(s):	Calgary, AB
Experience:	8+ years
Minimum Education:	Technical Certificate
Salary:	Commensurate with experience

Company Overview:

Zedi Inc. (TSX VENTURE: ZED) specializes in the end-to-end management of oil and gas production operations. Zedi arms producers from the field to head office with accurate, timely and centralized data to help them make better business decisions. Using technology to gather highly accurate data from well sites, Zedi automatically moves it through critical work processes including web-based field data capture and production accounting systems. Zedi technology is continually evolving in the control and optimization of wells to ensure maximum production and cost reduction.

The Marketing and Technical Development team's mandate consists of both take-to-market product development and internal infrastructure support projects. For more information about Zedi, please visit us online at www.zedi.ca.

Key Responsibilities:

Zedi is recruiting a Production Applications Specialist with at least 8 years of experience in the Oil & Gas Industry.

- Understand the business issues and data challenges of client organizations and the industry
- Identify clients' strengths and weaknesses and suggest areas of improvement
- Use knowledge of business and technology to ensure business objectives and requirements are documented, business and system impacts are understood, and technology and process solutions are delivered to meet customer requirements
- Identify and understand changing conditions and respond accordingly
- Participate in the development of design specifications for Production Accounting and Field Data Capture products
- Perform functional testing
- Assist with application support activities
- Lead implementation projects for Production Accounting and Field Data Capture products
- Support the Sales team through demos, training and occasional customer visits
- Practice clear, open and honest communication and build an environment where full participation is the norm
- Train and mentor others through both formal and informal programs

Qualifications:

- Minimum 8 years experience in the Oil & Gas Industry
- CAPP designation required
- 3 – 5 years of experience in Production Accounting
- 2+ years of experience with Field Data Capture systems such as PVR, Fieldview/Avocet or Well View
- Project Management experience is an asset
- Extensive knowledge of field data capture and emerging industry practices when solving business problems
- Strong organizational skills with the ability to prioritize when under pressure
- Understanding of the business issues and data challenges of client organizations and the industry
- Demonstrated ability to analyze business, user and technical requirements
- Excellent communication skills

To Apply:

Forward your PDF or Microsoft Word formatted resume in confidence to careers@zedi.ca. Please use the job title as the subject line. We thank all applicants for their interest in Zedi; however only those candidates selected for an interview will be contacted.
